🌐 Portfolio

Bhubaneswar, Odisha, India

SUMMARY

Full Stack Developer with experience building AI-powered and scalable web applications using React, Next.js, Firebase, and modern frontend technologies. Developed multiple production-style projects including StudentHub, a comprehensive university management platform with role-based dashboards, attendance tracking, notifications, and student collaboration features. Passionate about building user-centric applications with clean UI and real-world impact.

EDUCATION

Gandhi Engineering College

Bachelor of Technology in Computer Science Engineering

Sep 2022 – May 2026

8.1 CGPA Bhubaneswar, Odisha, India

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, Java,
Web Development: HTML, CSS, React,
Mobile Development: Android Studio (Java, XML - beginner),
Backend & Databases: Firebase, Supabase
Tools & Platforms: VS Code, GitHub, Windsurf, Cursor, jupyter notebook
AI Tools: ChatGPT, Gemini Pro, Perplexity Pro, GitHub Copilot, Cursor AI
Creative Tools: Render, Canva, PhotoRoom, Figma, Vercel

FEATURED PROJECTS

University Management & Attendance System | *Full Stack, Database, Firebase*

- Developed “MyStudentHub,” a scalable full-stack university management platform designed to manage academic, administrative, and student activities for thousands of users with features including role-based dashboards, attendance tracking, assignments, notifications, study materials, and student collaboration systems.
- GitHub:** github.com/subhasish12345/STUDENTHUB

Levelize – Anime-Themed Productivity App | *Kotlin, Android Studio, Firebase*

- Built a gamified productivity application with XP-based task tracking and habit progression mechanics.
- Integrated Firebase authentication and real-time database.
- GitHub:** github.com/subhasish12345/LEVELIZE

AI-Powered Career Guide | *Full Stack, AI/ML, React, Flask, Firebase*

- Developed an AI career guidance platform offering personalized recommendations, daily updated job posts and free learning resources.
- GitHub:** github.com/subhasish12345/CARRIERAI

INTERNSHIPS AND COURSES

QSpiders

Data Analytics Trainee

- Undergoing structured training in Python, SQL, Excel, and Power BI for Data Analytics.

Dec 2025 – May 2026

Bhubaneswar, India

IBM EDUNET

AI Cloud Intern

- Completed an internship focused on AI on the cloud, gaining exposure to deploying AI models and services on IBM's cloud platform.
- Contributed to deploying an AI service that improved client model accuracy by 15%.

August 2025

Remote

CODTECHIT SOL

Android Developer Intern

- Designed and built an attendance tracking app for Android with 500+ active users.
- Improved application performance by 20% through optimized database queries.

Jan 2025 – Mar 2025

Remote

MINDSHIPT TECHNOLOGY

Prompt Engineering Intern

- Optimized generative AI model prompts enhancing generated content quality by 30%.

Oct 2024 – Nov 2024

Remote

NextZone

Full-Stack Developer Intern

- Designed responsive user interfaces and collaborated on backend services for client websites.
- Enhanced site loading times by 18% through code optimizations.

Aug 2024 – Oct 2024

Remote

CERTIFICATIONS

Internships (6 Certificates)	2024 – 2025
<i>Full-Stack Development, Prompting, Android App</i>	<i>Remote and Onsite</i>
IBM Skill Build and other Courses (4 Certificates)	2025
<i>AI, Cloud, Full-Stack Development</i>	<i>Remote</i>

EXTRACURRICULAR

Sphuritha Club	2023 – 2026
<i>Member & Event Coordinator</i>	<i>Gandhi Engineering College</i>
* Coordinated technical and non-technical college events including hackathons, web design competitions, esports tournaments, and literary activities.	
* Developed teamwork, communication, leadership, and event management skills through active participation and coordination.	
Google Arcade & Developer Programs	2024 – 2026
<i>Participant & Community Learner</i>	<i>Remote</i>
* Participated in Google developer learning initiatives focused on cloud technologies, AI tools, and modern development practices.	
* Engaged in hands-on technical challenges, collaborative learning activities, and developer community programs.	
College Events & Technical Activities	2022 – 2025
<i>Participant & Coordinator</i>	<i>Gandhi Engineering College</i>
* Participated in multiple technical, cultural, sports, and coordination events, earning 11+ certificates across diverse activities.
